RHINO 4X4 EVOLUTION 3® FRONT BUMPER

The Evolution 3 Bumper will evolve your 4x4 vehicle into an aggressive off-road machine without compromising its stylish lines and aesthetics. This front replacement bumper is now available with several exciting features that will satisfy any off-roading adventurer. It is manufactured from 3mm and 5mm all-steel material to protect your engine's vitals. It boasts full winch compatibility and two snatch-rated recovery points, as well as a class-leading approach angle.

This bumper comes standard with a heavy-duty bash plate that continues all the way to the cross-member. Other brands charge a premium for this extra feature.

The Plug and Play LED fog lights are fully compatible with the existing electrics.

The Evolution 3 bumper will only fit on the Thailand spec Nissan Navara vehicles. If your vehicle VIN number starts with MNT then our bumper is compatible.

COLOUR OPTIONS

The Evolution 3 Bumper is zinc coated for corrosion protection and finished in a hard-wearing powder coat. Standard colours are white or matt black. The middle section of the bumper is available in polished stainless steel or matt black.

SAFETY

The Evolution 3 Bumper has passed many dynamic crash tests in Australia to ensure it adheres to the existing safety systems for example, air bags. Air bags must fire at the right time. The Evolution 3 Bumper is airbag compatible and certified.

AIRFLOW

Our bumpers have been tested to provide maximum airflow to all the necessary cooling parts of your engine.

INSTALLATION

The new Evolution 3 Bumper is the first modular, three-piece designed bumper replacement. This is what differentiates it from all other replacement bumpers. The standard bumper on your vehicle gets removed completely and can be kept or sold.

OPTIONAL EXTRAS

- Colour coding
- Shackles
- Winch
- Spotlight mounting bar
- Spotlights

EVOLUTION REAR BUMPER

The new Evolution Rear Bumper gives your 4X4 a tough but styled look. It is manufactured from 3mm and 5mm all-steel to protect the rear of your vehicle. The bumper also includes a 3 350kg tow bar, great angle of departure and a tread plate for entering the rear of your vehicle, it also looks great in full stainless steel.

Our rear bumpers are unique and will defiantly stand out from the crowd.

COLOUR OPTIONS

The Evolution Rear Bumper is finished in a hard-wearing powder coat and is available in black or full stainless steel.

INCLUDES

- Square hitch tow bar receiver rated to 3 350kg
- Non-slip tread plate

On request they can be optioned to be non-reverse sensor compatible and supplied with blanketing plugs.

RHINO 4X4 ROCK SLIDERS

Solid 3mm material, provides maximum protection while maintaining great clearance. Powder coated matt black and includes high lift jacking points.
